Go to www.lampstand.net for weekend locations and information.

Team Position.....[Technically Gifted]

We have created a new position for the banquet weekends. To keep up with all the technical advances that we encounter everyday, we have a need to have a "tech" person for the weekends. This is someone who can run the sound board and have computer knowledge running power point and other similar programs. We need both men and women to fill this position. If this is a gift that God has given you, please let us know by e-mailing Bob Moss at bkntmoss@juno.com. This list will be given to each new lay director to pick from to be on God's weekends.

Information Changes

Many of you have changed home phones to cell phones, moved home addresses, or switched email accounts, etc. Often, we do not find out about it until someone else answers your old number or your email goes without a reply. If something in one of the above examples have changed since you possibly went through your weekend or a weekend that you served, will you please let us know your new information?

Email Bob Moss: bkntmoss@juno.com

Gathering Invitation

We would like to get the community more involved in the Gatherings. We have a lot of churches that have many members of their congregation who are a part of the Great Banquet Community. We would like for your church to "host" a gathering. In other words, to have your pastor give the message, your music team lead worship, and provide set up and clean up of the church at First Evangelical Presbyterian.

Contact Mike Dunn: mjdbone@sbcglobal.net

Reunion Groups

Reunion groups are meant to be an important part of our 4th days as we strive to bring other people closer to Christ. We learn by recognizing our moments when we feel closest to Christ, and when we have failed or missed opportunities. Sharing these moments with others holds us accountable to each other. We grow by sharing and being Christ's hands and feet.

If you are interested in joining a reunion groups, please let us know by e-mailing Pat Bevington at pbevington@comcast.net
